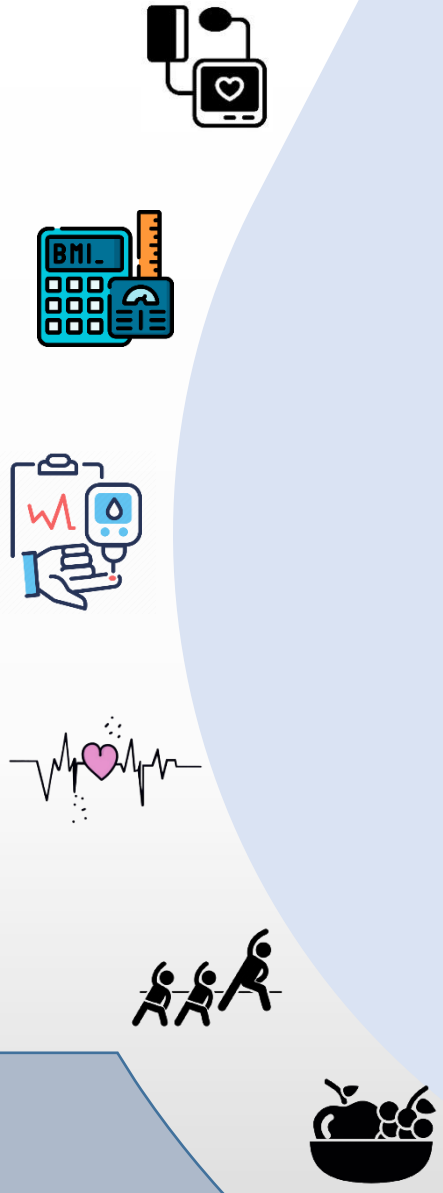
INTRODUCING A PLATFORM IN FIGHTING AGAINST NON-COMMUNICABLE DISEASES (NCDs)



WNCDi

Without Non Communicable Diseases

INITIATIVE

Becoming Healthier Together

Over 70% of all deaths globally are due to Non-Communicable Diseases (NCDs) where **41 - 44%** of deaths in Tanzania are attributed to NCDs according to WHO estimates.

This burden geared the introduction of New NCDs fight platform by the name: **Without Non Communicable Diseases Initiative (WNCDi)**

Without Non Communicable Diseases

INITIATIVE

ABOUT WNCDi

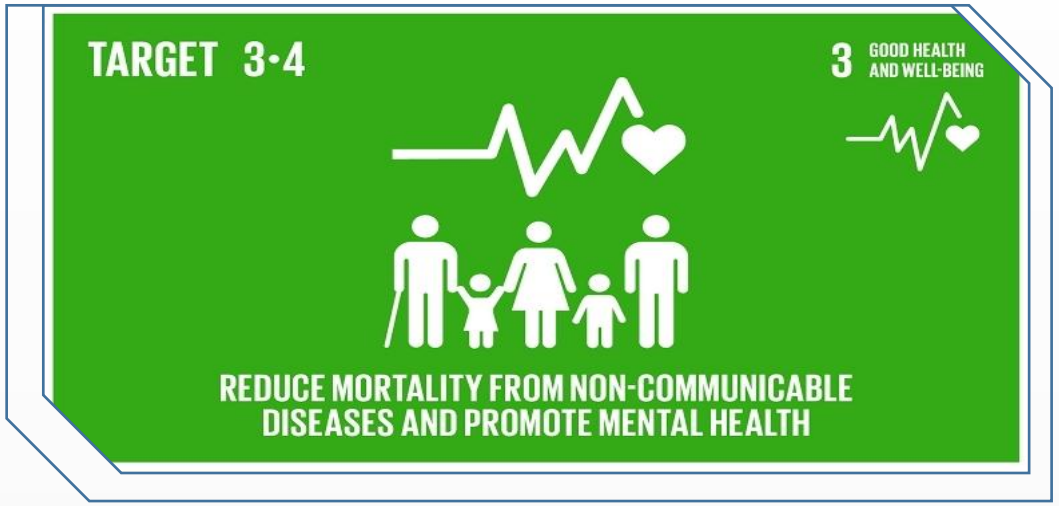
- Without Non Communicable Diseases Initiative (WNCDi) is a youth led Non-Governmental organization registered in December 2024 by Tanzania Ministry of Community Development, Gender, Elderly and Children (MCDGEC) with registration number **00NGO/R/7809** under NGO Act No. 24 of 2002.

- WNCDi has the main objective of rising awareness the community on various NCDs preventive basis.

To create the society that is free from preventable Non-Communicable Diseases burden, aware of health determinants to Non-communicable Diseases with Younger Generation actively involved.

Provision of incessant advocacy, campaigns and education on Non communicable diseases with their risk factors proportionally to the need of early diagnosis and effective NCDs control.

Organization Aim



The main aim of WNCDi is to aid the reduction of Non-Communicable Diseases burden in Tanzanian local and regional areas through actual ground activities in all levels

- ✓ Lower Schools
- ✓ Universities
- ✓ General Community

This initiative also encourages the attainment of Word Health Organization (WHO) Sustainable development goal (SDG) 3.4 by the year 2030 that is **reducing by one third premature mortality from Non-Communicable diseases**

Objectives

1. Attaining effective health promotion and preventive strategies that address individual behaviors due to life styles and emphasize best healthy choices

2. Provision of substantive knowledge to the society on the major determinants underlying NCDs occurrence and progression

3. Furnishing advocacy on the five burning NCDs trends in Tanzania (i.e Cardiovascular Diseases, Diabetes, Cancer, Chronic respiratory diseases also mental health)

Objectives...

Inviting various health professionals and NCDs experts from different health facilities and academic fields to share their experience on more ways of escaping from NCD burden and the effective control programs.

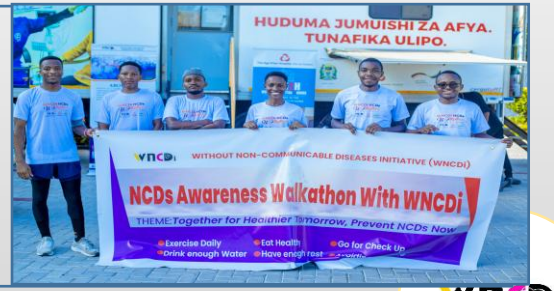
Encouraging health promotion and NCD prevention through organization of collaborative community NCDs screening camps while educating the society on the necessity of early disease detection

4. Establishment and organization of Health determinants **campaigns** that will assist attainment of WHO Sustainable Development Goal 3.4 by 2030

5.

6. To operate in complementarity, collaboration and partnership with local and international organizations or associations which have the common goals of addressing and fighting against NCD burden.

7.



Preposition Value

Creating young NCDs elites and advocate champions.

WNCDi operates not only in community adults across the regions but also in a **special subject to primary and secondary schools** where the very young generations receive NCD education and get educated on the proper ways on how will they be able to abstain from the NCDs risk factors heavily based on life styles.

This values targets **creation of healthier youth generation** that will be advocates and champions of Non- communicable diseases while at their very younger age and always as they will keep sharing widely as they grow.

ACTIVITIES

Creation of young NCDs champions through health mentorship.

We reach out to Primary and Secondary schools students and offer them with NCDs education and Healthy lifestyles adaption. We have already reached different schools and we are on progress to establish the NCDs Clubs in lower schools.

Community NCDs Advocacy and Outreaches.

We have different community reaching activities through onsite and online platforms that offer NCDs education with the base of self care lifestyles to get rid of preventable NCDs.

We reach to different broadcasting medias, We organize NCDs Walkathons, Charity with NCDs Education also to different working areas.

ACTIVITIES..

Organizing collaborative community NCDs screening.

This activity aims in assisting community members to early detect NCDs and advise them for early treatment and care after early diagnosis. This is done through screening camps that will be organized in collaboration with health stakeholders

Partnering with other institutions with NCDs fight agenda.

WNCDi is open to collaborate with other institutions, Organizations, Alliances or Associations that have the common agenda of fighting against Non Communicable diseases. It also collaborates with academic students associations in activities aiding NCDs fight where WNCDi meets good number of youths.

ACTIVITIES..

Establishment and Join Health determinants campaigns.

In insisting the Community on ways to get out of avoidable NCDs risk factors, We establish, support and join various Health Determinants Campaigns that help the communities adapt healthier lifestyles to keep it healthy from preventable NCDs.

Online Advocacy and NCDs prevention awareness

Due to current large number of people engaging in social media platforms, this activity targets on reaching a good number of people through online platforms that's gives awareness of NCDs and prevention strategies.
