WITHOUT NON COMMUNICABLE DISEASES INITIATIVE (WNCDi) WEBSITE CONTENTS.

Home

Name: The name **'Without Non-Communicable Diseases Initiative'** abbreviated as **WNCDi** carries the direct meaning of creating the present and future society that will live with less and finally 'Without' the great trends of Non Communicable Diseases Burden. This will be attained by actively involving youths who are the builder of good health of the future community. 'Initiative' stands proportional with Organizational status as it imply the abilities to start and progress in the NCDs elimination actions.

- **ABOUT US.**
  Without Non Communicable Diseases Initiative (WNCDi) is a youth led Non-Governmental, non-profit, non-political, non-religious organization registered by Tanzania ministry of Community Development, Gender, Elderly and Children (MCDGEC) with registration number 00NGO/R/7809 under NGO Act No. 24 of 2002. WNCDi has the main objective of rising awareness to the community on various Non Communicable Diseases and emphasis on good approaches to get rid of Non Communicable Diseases (NCDs) burden which is currently accountable for more than 70% of life loss globally.
- **Vision.**
  To create the society that is free from preventable Non-Communicable diseases burden, aware of health determinants to NCDs with younger generation actively involved.
- **Mission.**
  Provision of incessant advocacy, campaigns, educations and trainings on Non-communicable diseases with their risk factors proportionally to the need of early diagnosis and effective NCDs control.

- **Our Programs**
  - ✓ **NCDs Advocacy.**
    [Picture]
    As the main objective of WNCDi, we have a continuous program of educating the society in both onsite and online on different NCDs including good approach the society can adapt to avoid fall into preventable NCDs. Through our community reaching activities we emphasize on adaption of Healthier life styles like maintaining physical activeness, healthy diet consideration, frequent NCDs checkups and effective management to the ones who already have any of the NCD.

  - ✓ **Creation of younger NCDs champions**
    [Picture]
    We believe in the power of youth awareness to create the future healthy community. We have the health mentorship and lower level schools NCDs education to very younger generation in primary and secondary schools through the **NCDs health clubs** established. We have already younger NCDs ambassadors in lower level schools in Dar Es Salaam.

  - ✓ **Health determinants campaigns.**
    [Picture]
    We have the NCDs fight health campaigns that emphasize and reminds the community on their responsibility to protect themselves from the preventable NCDs.

  - ✓ **International NCDs Commemorations.**
    [Picture]
    To let the continuous education, we join the world's different NCD commemorations by implementing some activities which are associated with provision of education with important tips that society need to know about that specific disease. The provisions are

associated with proper ways to adapt and avoid falling into getting the disease.

- ✓ **Collaborative NCDs screening.**
  [Picture]
  To help the community members know their NCDs health status, we plan and organize collaborative screening camps to the community areas and help the society check the basic NCDs such as blood glucose level tests, blood pressure, Body Mass Index, cancer marker tests and other vital tests. The screening camps are associated with NCDs education delivery sessions and management educations that is provided by the doctors and trained WNCDi team. The education part in screening are also moving together with the provision of healthier lifestyles to adapt for avoidance of preventable NCDs.
